

INSTANT SURVEILLANCE – ANYWHERE

Instant Surveillance - ANYWHERE

Enabling customers to watch their assets, sites and environment
install cameras anywhere, view from anywhere

Instant Surveillance - ANYWHERE

Introducing the iDefigo platform – the world’s first “mobile first” cloud-based surveillance management service.

iDefigo is optimized for 3G M2M networks and for a new breed of mobile surveillance devices, like the Mi5 Security cameras.

Cloud-based
Surveillance
service

A new family of
clean technology
surveillance cameras

Carrier M2M
Partnerships

Mi5 Security & iDefigo

Simple to purchase

Simple to deploy

Simple to configure

Simple to scale

Simple to manage

Conventional Surveillance

Specialist sales channels

Deployed by engineers

Configured by engineers

Expensive to scale

Managed by IT teams

***Empowering the organisation
to control its own surveillance - anywhere***

The iDefigo Platform

iDefigo Cloud Surveillance Platform
