## Thermal Printer (2-inch)

## Specifications

| | | |
|---|---|---|
| Print | Print Method | Direct Thermosensitive Method |
| | Width | 48 mm |
| | Print Speed | 60 mm/sec |
| | Resolution | 8 dots/mm |
| | Paper Supply Method | Friction feeding |
| | Character Sizes | 24 x 16 |
| | Characters per line | 24 |
| | Sensors | Paper Low, Paper Present |
| | Paper Type | Thermal Paper |
| | Keypad | 2 Keys - Test Print and Paper feed |
| Memory | RAM | 8 KB |
| Display | Type | 16 x 2 lines alphanumeric |
| Barcode | | CODE 128 |
| Reliability | Wear life | Paper feed length-50 km |
| Connectivity | Communication interface | RS232C |
| Input Power | Logic | 5 VDC, 0.3A max |
| | Mechanical | 8.5 VDC, 1.5A |

## Application Areas

Industrial automation
Medical instruments
POS  systems
Ticketing
Gaming
